Daywater

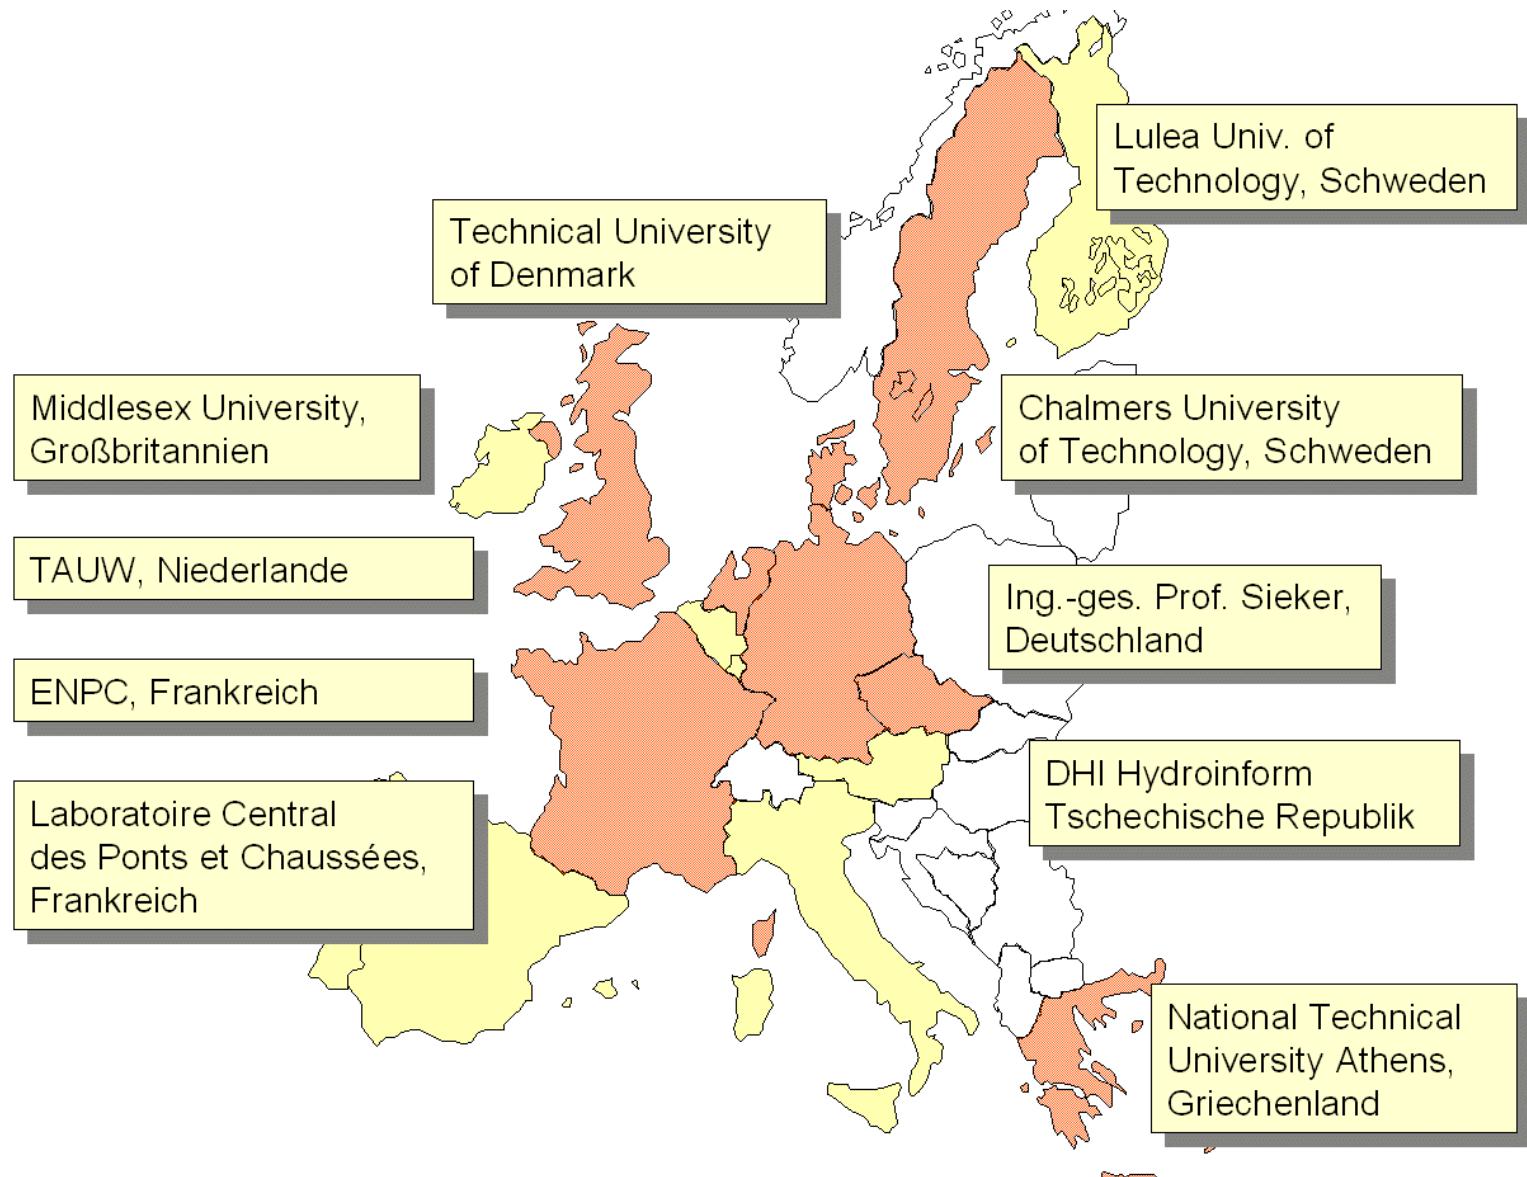

- Daywater: schwedish „dagwaten“ = Storm water
- Objective:
Development of an Adaptive Decision Support System (ADSS) for Stormwater Pollution Control
- Period Dec. 2003 - Nov. 2005
- Budget: ~ 2.5 Mill. €

Daywater Partner

Daywater - Abstract

The EU-Project Daywater aims at developing an **adaptive decision support system (ADSS)** for use by stakeholders involved in urban water management.

The ADSS is a combination of simulation models, assessment tools, databases, guidance documents, road maps, etc.. presented and operating together on a web site or CD-ROM. Starting from an analysis of end-user's experience on decision making in stormwater source control, **the research will focus on the functional behaviour of structural and non structural best management practices (BMPs). Models** will be developed for simulating **pollution fluxes** and assessing their possible control and fate within BMPs, and for assessing risks and impacts related to urban stormwater. The project is carried out by a **multi-disciplinary research team** and includes 14 end-users corresponding to European cities presenting various climates and organisation, where ADSS will be developed and tested.

SWITCH

EU-FP6th Project

SWITCH

- SWITCH: **Sustainable Water management Improves Tomorrow's Cities' Health**
- Status: Projekt is running
- Application
 - Period 5 years (Evaluation after 18 months)
 - Start 2005-2010
 - Budget 24.7 Millionen €
 - Partners 34

SWITCH Partners

- Netherlands
 - UNESCO-IHE Institute for Water Education, Delft (Lead Partner)
 - IRC International Water and Sanitation Centre, Delft
 - Wageningen University
 - ETC Foundation, Leusden
- UK
 - Middlesex University, London
 - University of Birmingham
 - Ove Arup Environment
 - Natural Resources Institute
 - Water, Engineering and Development Centre, Loughborough University
- Germany
 - Technical University of Hamburg-Harburg
 - ICLEI (Europe) – Local Governments for Sustainability, Freiburg
 - Technical University of Berlin
 - Ingenieurgesellschaft Prof. Dr. Sieker mbH, Hoppegarten
- Ayuntamiento de Zaragoza, Spanien (EXPO 2008)
- University of Lodz, Polen
- Ecole Polytechnique Fédérale de Lausanne, Schweiz

SWITCH Partners (2)

- Near East
 - Mekorot Water Company, Tel Aviv,
 - Hebrew University, Jerusalem
 - House of Water and Environment, Palestine
 - Institute of Graduate Studies and Research, Alexandria, Egypt
- China
 - Ministry of Construction, Beijing
 - Institute of Geographical Sciences and Natural Resources Research, Beijing
- Africa
 - United Nations Human Settlements Programm, Nairobi,Kenia
 - IWMI International Water Management Institute, Accra, Ghana
 - Kwame Nkrumah University of Science and Technology, Ghana
- South-Amerika
 - Prefeitura Municipal de Belo Horizonte, Brasilien
 - Universidade Federal de Minas Gerais, Belo Horizonte
 - Centro Inter-Regional de Abastecimiento y Remocion de Agua, Colombia
 - Universidad Nacional [UNAL], Bogota
 - IPES – Promocion del Desarrollo Sostenible, Lima, Peru

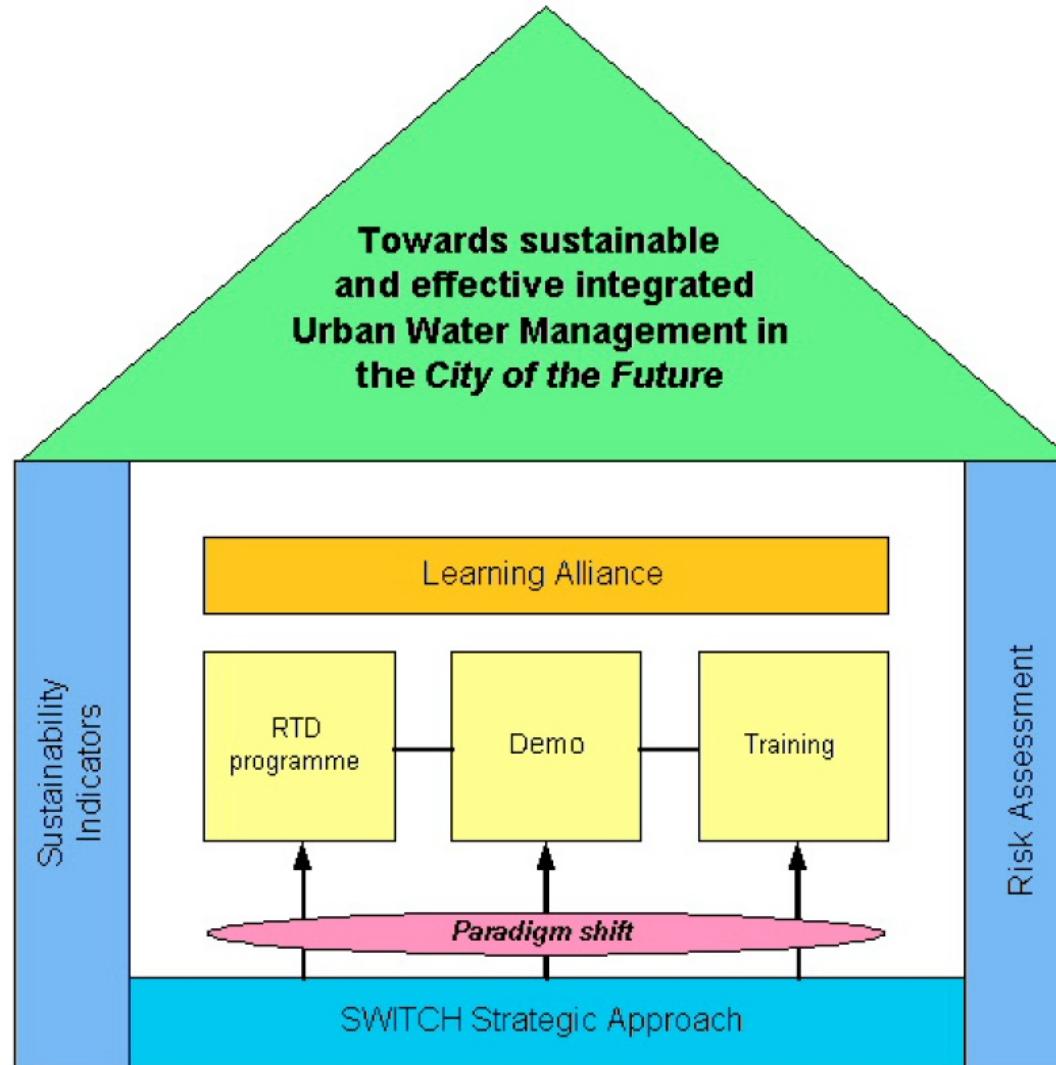

SWITCH: Project Goal

The SWITCH Integrated Project aims at the **development, application and demonstration** of a range of tested scientific, technological and **socio-economic solutions and approaches** that contribute to the achievement of **sustainable and effective urban water management** schemes in '**The City of the Future**' (projection 30-50 years from now)

SWITCH: Project Idea

RTD: Research & Technological Development

SWITCH: Work Packages

- WP1: Overall activities
- WP2: Urban water paradigm shift
- WP3: Urban water supply & use
- WP4: Storm Water Management
- WP5: Water use in sanitation and waste management
- WP6: Urban water environments and planning
- WP7: Governance and institutional change

Interreg III B

- Europa separated in different regions:
 - CADSES
 - Alpine Space
 - NorthSea-Region
 - Northwest Europe
 - Baltic Sea
 - ...

NORIS

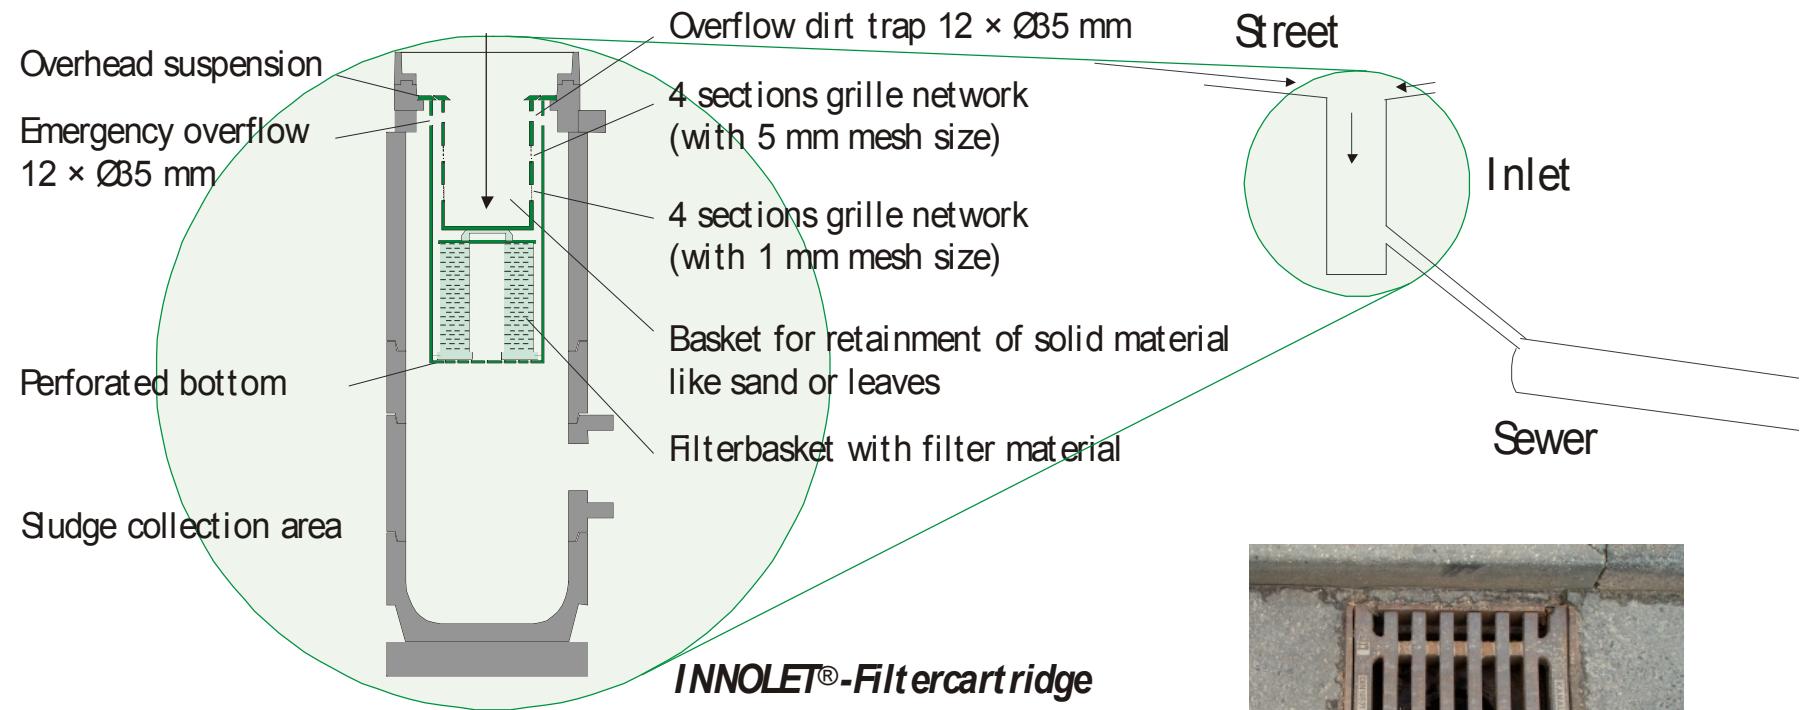

- NORIS: No Rain in Sewers
- Interreg IIIB NorthSeaRegion (2005 – 2007)
- Lead partner: Skövde community, Sweden
- Partner: Hannover (D), Ieper (B), Bradford (UK), Wieringer Meer (NL)
- Subpartner: IPS (D), Chalmers Univ. (S)
- Innovative Technologies for reduced water discharge and improved water quality
- Website: www.noris-interreg.eu

NORIS

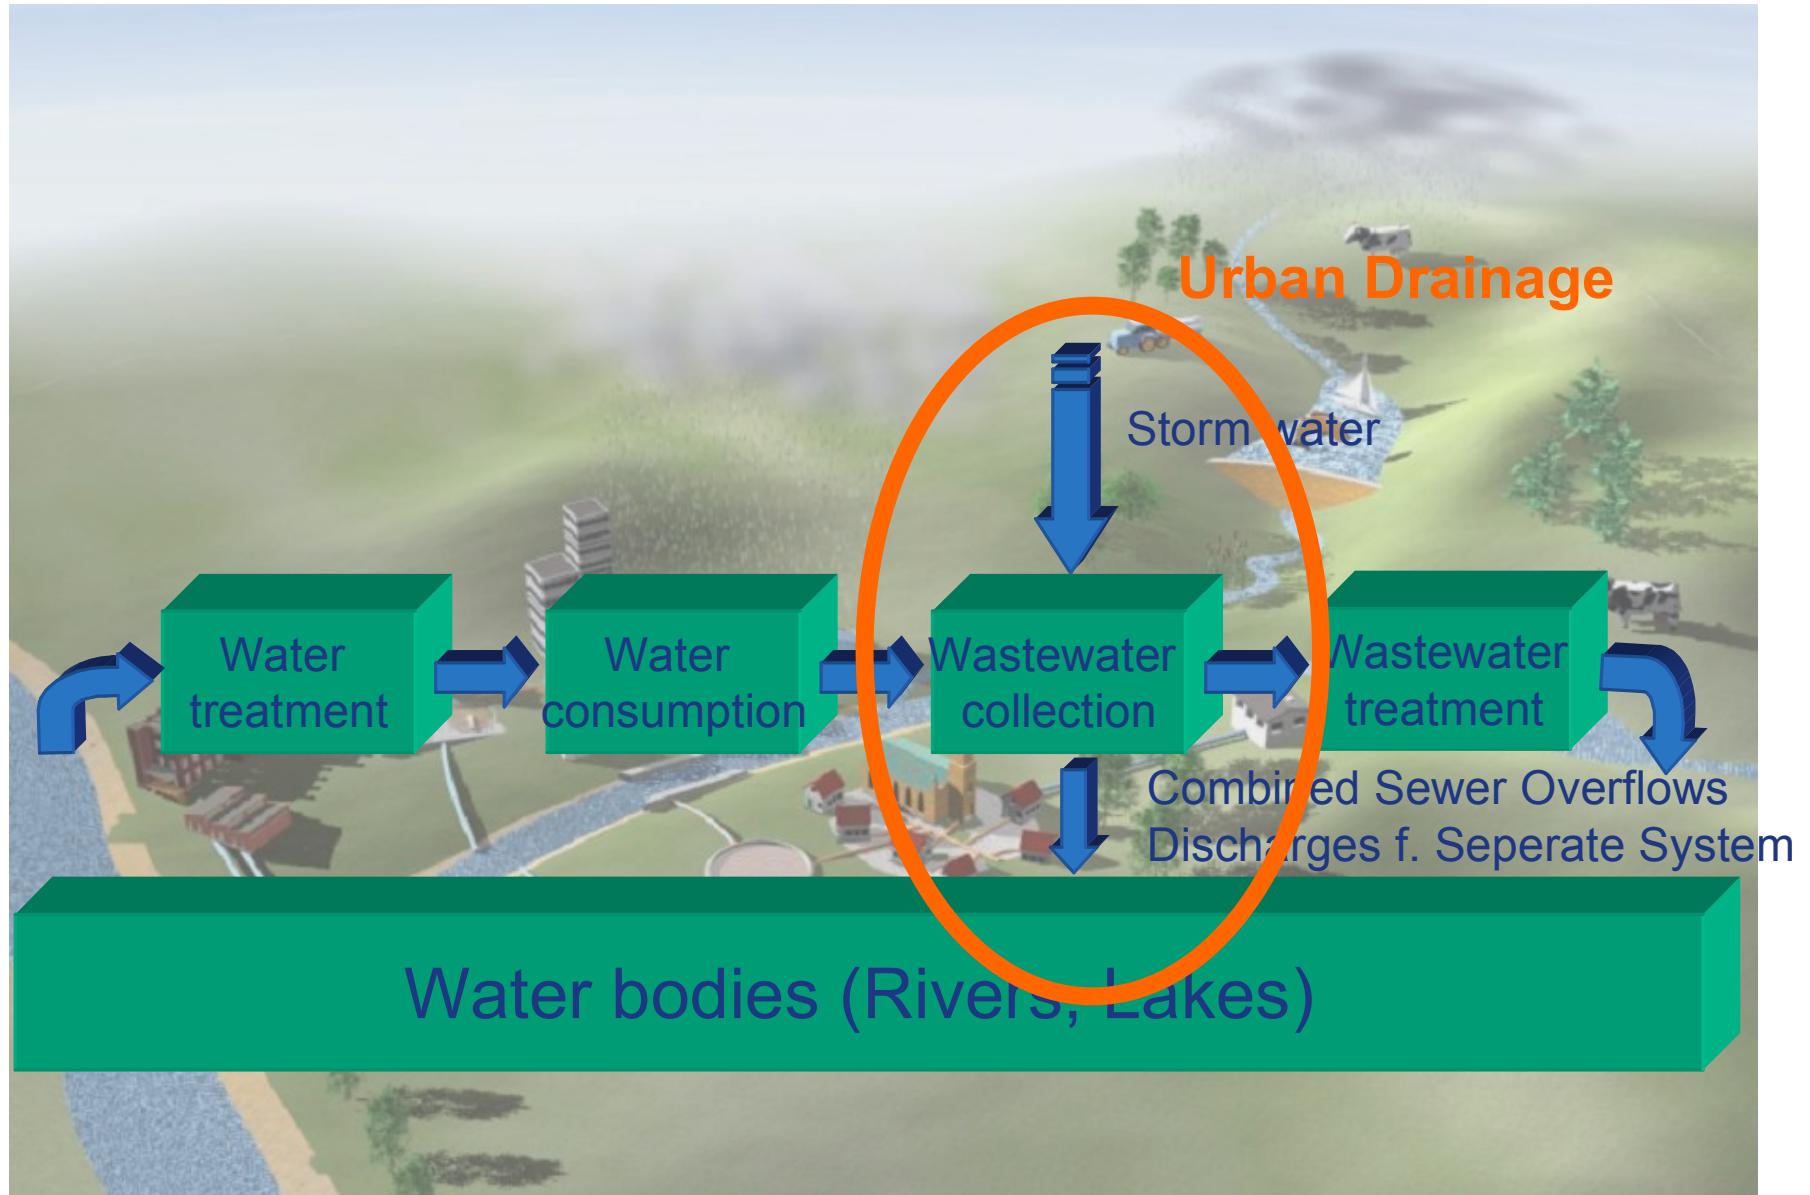

UrbanWaterCycle

- Interreg IIIB NorthSeaRegion (2004-2008)
- Lead-Partner: Waterschap Regge&Dinkel, Niederlande
- Partner: Freie und Hansestadt Hamburg (IPS als Consultant), Province of Frysland (NL), Bradford (UK)
- Aim: Optimisation of Urban Water Cycle
- Website: www.urbanwatercycle.org

Urban Water Cycle

Raindrop

- Interreg IIIB Cadses (2005-2007)
- Lead-Partner: Karvina, Czech Republic
- Partner: Kupferzell (D, IPS as consultant), Acharnai (GR), Tsetin (SW), Vsetin (CZ)
- Aim: Optimised Master planning for Storm Water
- Website: www.raindrop-cadses.org

Raindrop

Actual EU funding programs (selection)

- Interreg IV (A, B, C)
- Life
- EUREKA Eurostars
-

Interreg IVb North Sea Region Program: Central Criteria

- A Crossborder
 - B Partners from a specific Region
 - C Partners with no regional context
-
- Sustainable development
 - Innovation
 - Territorial cohesion
 - Equal opportunities
 - Transnational Cooperation

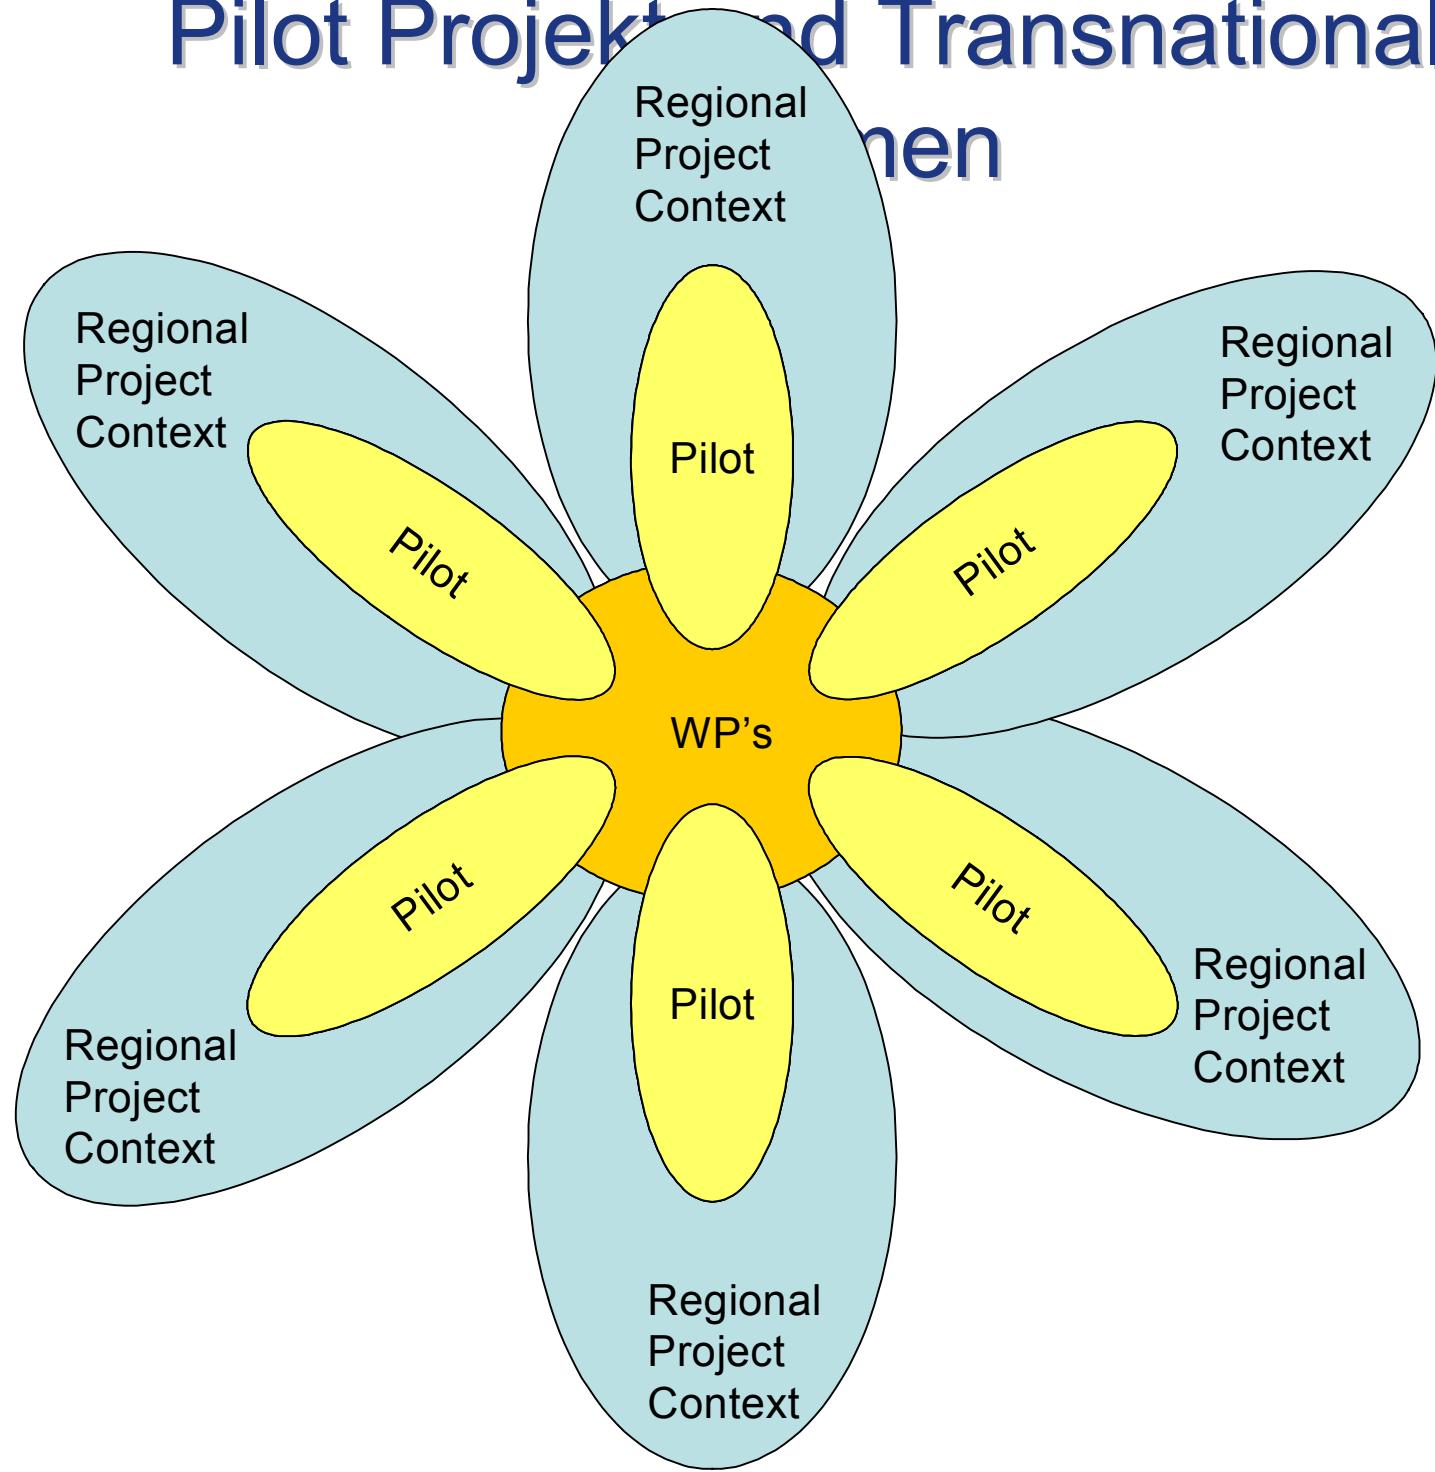

Aim of the Program: Make the North Sea Region a better place to live, work and invest in.

Support of transnational Cooperation:

- **Enforce overall niveau of Innovations in the North Sea Region**
- **Improve environmental quality**
- **Improve reachabilty of places**
- **Sustainable and compatible communities and regions**

Pilot Projekt und Transnationale Netzwerken

Interreg IVb Finances

- 148.000.000 Euro on 4 priorities
 - Priority 1: 30%
 - Priority 2: 25%
 - Priority 3: 25%
 - Priority 4: 20%
- Programm for transnational Knowledge Exchange
 - Communication plan
 - Budget for material investments ca. 15-20% per partner
- Funding
 - North Sea Region 50%
 - Baltic Sea Region up to 75%

LIFE+

- 2007-2013
- Innovative or demonstration projects
 - Nature and biodiversity
 - Environment Policy and governance
 - Information and communication
 -

LIFE+

- (a) to contribute to the development and demonstration of innovative policy approaches, technologies, methods and instruments;
- (b) to contribute to consolidating the knowledge base for the development, assessment, monitoring and evaluation of environmental policy and legislation;
- (c) to support the design and implementation of approaches to monitoring and assessment of the state of the environment and the factors, pressures and responses that impact on it;
- (d) to facilitate the implementation of Community environment policy, with particular emphasis on implementation at local and regional level;

LIFE+

- **Subjects (selection)**
 - Climate change !!
 - Water
 - Environment
 - Innovation
 - Strategic approaches
- **Who can apply**
 - Legal entities
 - Communities, commercial firms etc.
 - Min. 2 countries from participating countries
 -
- **Cofinancing rate**
 - Max. 50%

Eurostars, powered by EUREKA

- **Research and developing program (2008-2013)**
- **Technological, non-military**
- **New product, process or service**
 - Ready for market after funding period
- **Who can apply**
 - Especially SME's, as leading partners
 - Partners from min. 2 participating countries
 - Max. 3 years

Eurostars, powered by EUREKA

- **Finances**
 - 300 Mio. EUR all countries
 - 30 Mio. EUR Germany (BMBF funds)
- **Cofinancing rate**
 - Up to 50% SME
 - Up to 100% Universities
 - Up to 75% Research institutes
 - Max. 1 Mio. EUR for german partners

Developing new projects by IPS

INTERREG

Northsea Region IVb

- STEAM Energy and Water
- SKINT Watermanagement in early planning stage, water balance

Baltic Sea Region Ivb

- Diffuse pollution, City of Prenzlau

Life

- Demonstration of decentral storm water treatment

Eurostars

-

Consultancy for projects by other SME's is possible

Thanks for your attention!
